

Project Brief: MSU Student Housing Cooperative

The Michigan State University Student Housing Cooperative (MSU SHC) is a non-profit organization providing a low-cost housing option for students at MSU and surrounding schools. There are more than 200 members in 15 houses across the East Lansing area. Houses vary from five to 29 members, each with their own character and history. MSU SHC needs a new website to showcase its houses while providing room-availability and leasing information. The site should be user-friendly whilst being photo-centric to give visitors a feel being a part of the SHC.
